The crossover from the old FileNet system to the new technology is complete and some issues do remain; however, the IT Division is working through them. The Employee Education and Appreciation Day event is scheduled for August 24, 2017 immediately following the Commissioners’ meeting. Please plan to attend the event.

Old Business: Chairman Aumann reported that he will be discussing the delicate subject of appropriate behavior in the hearing room at the breakfast with the Commissioners in Ocean City at the MWCEA Convention. Commissioner Warren discussed pro-se claimants with medical claims after the indemnity has been paid. The Commission will continue to refer those claimants to the Bar Associations for assistance.

Present: Chairman Aumann and Commissioners Patricia Adams, Kathleen Evans, Cynthia Miraglia, Jeffrey Herwig, Maureen Quinn, Tracey Warren and Jeffrey Weinberg. Also attending were Mary Ahearn, Amy Lackington, Dr. Jerome Reichmister and Stacey L. Roig, Secretary.

Approval of Minutes: The Minutes of the July 6, 2017 Commission meeting were reviewed upon motion of Commissioner Adams and second of Commissioner Warren the Minutes, were approved with a unanimous vote.

Chairman’s Report: Chairman Aumann reported that the SAWCA Conference was an excellent program, including a mock hearing on how to properly handle the claimant throughout the process. The National Judges’ conference begins in August in Orlando. Several Staff members will also be attending the WCI conference this year. The Enterprise Modernization Project is moving along. The Proposal Evaluation Committee is reviewing the proposals that were received. The Chairman also announced that Robert Zarbin passed away and Judge Green has named James McAllister as conservator of his cases. The Compliance dockets that have been generating fines are finally starting to be collected by the Uninsured Employers’ Fund.

Old Business: Commissioner Weinberg reported on an attorney settling claims and bringing in the SIF later after the settlement has been approved.

New Business: Scott Curtis reported that the Department of Labor, Licensing & Regulation has clarified their position on subpoenas for Unemployment Insurance records due to their Memorandum of Understanding with USDOL and the IRS. The MOU has strict privacy provisions allowing records to be viewed only with a court order or if the claimant requests the records and provides them to the defense counsel. The Commission will adjust procedures as needed with this change. Stacey Roig reported that the MSIECA Luncheon with the Commissioners scheduled for September 14th has been changed to November 9th. Commissioners Weinberg, Schadt, Warren, Quinn, Miraglia, Herwig and Evans will plan to join Chairman Aumann at this event.

Mary Ahearn reported on the UEF Questionnaires not being completed and hearing was set or an Emergency hearing was granted. Employer Questionnaires not being completed will not hold up a hearing, but the Claimant Questionnaire will. Chairman Aumann discussed a SIF case that was remanded to the Commission questioning the SIF Questionnaire and why it was needed if the threshold hasn’t been met. Commissioner Weinberg discussed concerns regarding a settlement agreement with no Medicare set aside but possible future surgeries required.

Mary Ahearn reported on the NFL docket procedures. Ms. Ahearn asked the Commissioners to instruct the parties to withdraw their issues and refile after July 1st In order to prevent the case from being reset. Requests for continuations should be reviewed carefully and be granted only for meritorious reasons.

and a second by Commissioner Miragila and upon a unanimous vote, the Regulation change was approved.

Mary Ahearn also reported that the Interpreter cases are being followed closely for quality.

**Medical Alerts:** Dr. Reichmister reported on various medical findings and alerts. Heartburn drugs available over the counter have shown a possible linkage to long term increased morbidity. There is no evidence to show that the stem cell treatments being performed for various conditions at specialty clinics are either safe or effective. Studies have shown that topical creams, including Tramadol, are ineffective for pain management because Tramadol must be taken orally to be effective. We are born with approximately 15,000 little hairs in our ears. They do not regenerate, which is what leads to hearing loss. New research has shown that the hearing hairs may be able to be regenerated. MRI findings may or may not be accurate in detecting damage. A recent study found that a patient who complained of pain in his right knee and no pain in his left knee had MRI findings that showed the same damage in both knees although only the right knee was causing pain.

**Adjournment:** Upon a motion by Commissioner Weinberg and second by Commissioner Evans and, upon unanimous vote, the meeting was adjourned.

Dr. Reichmister also reported that it is necessary to take the full dosage and course of antibiotics when fighting an infection; however, there are many infections that we don’t know enough about to determine how much of an antibiotic is needed to kill it. A new diet is available to “Keep the Mind Sharp”. The diet lists the foods you should eat and those foods to limit to potentially lower the risk of Alzheimer’s by 35 – 53%. Dr. Reichmister also provided a handout with information on Plantar Fasciitis. The condition can lead to a heel spur where the inflammation takes place but rarely requires surgery.

Also attending were Mary Ahearn, Steven Jones, Amy Lackington, Jerome Reichmister, M.D. and Stacey L. Roig, Secretary.

Closed Session: At 9:35 a.m., upon motion of Commissioner Quinn and second of Commissioner Herwig and upon unanimous vote, pursuant to GP §3-305 (13), LE §§9-402, 9-403, 9-405, 9-406 and 9-1104, and COMAR 14.09.13.12 the Commission entered a closed session for the purpose of discussion of self-insured employers’ financial information.

ICR Report: Steven Jones reported on behalf of the Insurance, Compliance and Reporting Division that Goodwill Industries of the Chesapeake has requested the opportunity to join the self-insurance program. The meeting was reopened at 9:44 a.m., upon motion of Commissioner Adams and second of Commissioner Quinn and upon unanimous vote.

Chairman’s Report: The Chairman reported that the Loss Cost data came in from NCCI and the data indicates a recommendation of premium decrease of 13.4% total premium decrease over the last three years has been over 28%. The Chairman, accompanied by Commissioner Schadt, presented the information to the Governor, who was pleased with the information. NCCI reported across the board decreases, including experience ratings and medical costs and, of particular note, the clerical worker mods were way down in terms of accident occurrences and that is the largest class of workers in Maryland’s economy. The Chairman also reported that Virginia is moving to a Medical Fee Guide for 2018, which will be geographically driven so there will be 48 different guides based on county/geographic location within the state. Chesapeake Employers’ Insurance is taking big steps to work on the opioid crisis with positive programs and advertising. Most dockets have a carrier request for a claimant to be weaned off opioids. The Chairman reported that the NAWCJ conference in Orlando, FL was very good. Several Commissioners and staff members were present at the conference. The Commission has reached the end of the process for selecting the firm that will provide the personnel for our Enterprise Modernization Project. The Evaluation Committee worked hard and did an excellent job in working through the evaluation process. The Evaluation Committee’s selection has been submitted to DOIT for review and final approval. The Commission has been a test case for DOIT in using the “Agile” process allowing the Commission to run the new system parallel to our current system as we work through the project. This method allows for a flexible system as it is built, as opposed to building the new system and then
unveiling 5 years later and it is outdated before we start using it. We will have about 5 to 7 new people in the Downtown office and they will be housed in the Support Services area on the 7th floor.

**Old Business:** No Report

**New Business:** Commissioners Herwig, Quinn and Adams reported problems with the 5th floor printer. There are 19 users and one copier/printer. Mary Ahearn will discuss options with Fiscal Services. Commissioner Adams also requested that a 2nd printer at Beltsville be considered. Mary Ahearn reminded the Commissioners to contact Fiscal Services with issues and requests regarding facilities, including the Regional Sites.

**Medical Alerts:** Dr. Reichmister provided information regarding medical marijuana and the degree of its effectiveness in relieving pain.

**Adjournment:** Upon a motion by Commissioner Weinberg and second by Commissioner Godwin and, upon unanimous vote, the meeting was adjourned to the 3rd Floor Meeting Space for the Employee Training and Appreciation Event.

R. Karl Aumann, Chairman

Stacey L. Roig, Secretary
Call to Order: Chairman Aumann called the meeting to order at 9:32 a.m.

Present: Chairman Aumann and Commissioners Patricia Adams, Kathleen Evans, Jeffrey Herwig, Maureen Quinn, Delia Turano Schadt, Tracey Warren and Jeffrey Weinberg. This is a joint meeting of Commissioners, Commissioner Assistants and Support Services. The complete attendance list is attached to the Minutes in a separate sheet.

Approval of Minutes: The Minutes of the August 24, 2017 Commission meeting were reviewed upon motion of Commissioner Herwig and second of Commissioner Adams the Minutes, were approved with a unanimous vote.

Chairman’s Report: The Chairman reported that the MD Insurance Administration has approved the premium decrease as recommended by NCCI, which is the most substantial decrease in premium for MD employers in many years. NCCI’s State Advisory Forum was held on September 12th and was very informative about State and Federal issues. The elevators continue to be a problem but DGS is working with building management to fix the issues. In the meantime, watch your step entering and exiting the elevators. The Chairman reported that the Enterprise Modernization Project has suffered a slight setback because the contract that was evaluated and approved by the WCC Evaluation Committee was not approved by DoIT. The WCC will resubmit the contract with changes and through the Board of Public Works, which will provide the opportunity for an open contract bidding system and possibly more bids that will better meet our needs.

The Employee Training and Appreciation Day event was a great event and the survey results showed how much it was enjoyed by all. Scott Curtis, Principal Counsel, is working on an important legislative change for the 2018 session, regarding the MD Public Information Act (MPIA) and the exclusion of certain claim data, similar to the exclusions granted some other state agencies. The Chairman reminded the Commissioners of the MWCEA Conference beginning September 17th, the IAIABC Convention beginning on October 2nd and the SAWCA All Committee Conference beginning on November 14th.

Old Business: No Report

New Business: Discussion was held regarding the implementation of HB1484 – Medical Benefits – Payments of Medical Services & Treatments. The new law sets a time limit that medical providers have to submit bills to an employer or insurer for payment. Providers will have the later of one (1) year from the date of service or one (1) year since the claim was accepted by the employer/insurer or one (1) year after the Commission has accepted/ordered the claim to be compensable. The Commission will continue to use the C-51 process with no changes to the C-51 form. If the insurance carrier raises the issue of timing on the invoice from the Provider, the case will be set-in for a hearing using the C-51 process. The new law becomes effective on October 1, 2017 so, services provided October 1, 2017 or later will be subject to the law changes. Information will be posted to the Commission website.

Scott Curtis, Principal Counsel, discussed COMAR 14.09.08.06, which are the Regulations implementing HB1484. The Regulations were presented to the Commissioners for review and are to be published in December 2017. A motion to accept the Regulations was made by Commissioner Herwig with a second from Commissioner Weinberg and a unanimous vote by the Commissioners.
The Commissioners discussed their topics for the Breakfast with the Commissioners at the MWCEA Convention on September 20th.

Christina White raised a question on behalf of the Commissioner Assistants regarding the calculation of attorney fees and submitting expenses for reimbursement. After a discussion, it was determined that all of the Commissioners handle the issue differently but, if the documents submitted by the attorney for expense reimbursement are not correct, the reimbursement request should be rejected.

Mary Ahearn reported that an additional printer has been placed on the 5th floor temporarily until a better solution can be found. Facsimile technology is not as up to date as other options. Fiscal Services is working on the situation.

Adjournment: Upon a motion by Commissioner Weinberg and second by Commissioner Herwig and, upon unanimous vote, the meeting was adjourned.

Chairman’s Report: The Chairman reported that there has been an increase in the backlog of cases, which appears to be due to an increase in requests for continuances and, on some dockets up to 70% of the cases on the docket are being continued. When a case is continued, 90 days later, they are back on the docket and the backlog continues to grow. The Chairman asked the Commissioners to please remember to follow all rules for continuances because the number of continuances being granted is having a negative impact on docketing and setting cases. Issues Withdrawn is different because Issues Withdrawn pulls the case out of line. The Chairman also reminded the Commissioners that hearings begin at 9:30am. The time was specifically chosen to allow for traffic, buildings being open, etc. On very rare occasions, a
Commissioner may start early but, no one is to be chastised for being “late” because the Commission started early.

Chairman’s Report: Chairman Aumann discussed the Oversight Committee meeting which took place on December 4, 2017. Present at the Oversight Committee meeting were members of the trial lawyer’s group who raised the issue of payment of attorney fees in post-permanency hearings on medical treatment. The trial lawyers suggested that regulations be put in place that the fee is to be paid by the insurance carrier. Chairman Aumann countered this argument with a suggestion to implement a pro bono program to assist those in need which in turn would be a good mentoring program for young lawyers.
The Chairman added that this also applies in cases where an attorney dies, is disbarred, retires, etc. A program should be implemented that is tailored to meet all of these needs. Chairman advised that Delegate Sally Jameson is retiring and will not seek re-election. The Chairman reported to the Oversight Committee that the Commission’s continuing study of the doctor dispensing and associated costs shows a small decrease in volume and cost over the past 4 years. NCCI gave a presentation on the continuing use of opioids which indicated that older claims/cases show the highest opioid dispensing rates. The Chairman would like to meet with carrier representatives and have them review their older claims.
